Continuation of 5. does NOT place the application in condition for allowance because: The proposed amendment recites "the surface" without defining a surface for the cone, however, a surface of the cone does in fact engage a surface of the recess. In response to applicant's argument that McCain fails to disclose a coupling cone, the Examiner disagrees because the shape of the "cone" in McCain is the same as the shape of the "cone" in Fig. 3 of the instant invention. All other arguments have been considered, however the Examiner maintains that the rejection is proper.
